

West Virginia TOBACCO QUITLINE

1-800-QUIT-NOW 1-877-966-8784

ENROLLING IN THE QUITLINE IS EASY!

- Pregnant women who have Medicaid no longer have to return paperwork to the Quitline.

- Participants don't need to have a referral, they can simply call **1-800-QUIT NOW**.

- During the enrollment call, the call agent will check the participant's Medicaid eligibility. Once confirmed, we complete the enrollment call and connect the caller with a tobacco cessation coach.

- If the caller has their Rx information available during the call, the coach will send a fax to Medicaid for approval.

- Participants should be able to pick up their Rx at their local pharmacy within 4 to 24 hours of completing the coaching call and providing the coach with their Rx information.

- Their coach will call them once every two weeks to check on them, but the participant is welcome to call as often as needed.
